We are a premium and private security services provider that specializes in protecting the digital lives of VIP's, their families and interests - we focus on what matters most to our clients in their private lives.

Let Us Assess and Help Protect What's Important To You.

Cyber VIP security recognizes that VIP's are uniquely targeted by cyber attackers who adapt and evolve. This requires a unique and adaptive defensive approach that is commensurate to the threat.

Why Cyber VIP Security?

A privately owned, boutique security services firm made up of industry experienced security specialists that offer a unique approach to protecting what's important to you.

Our mission is to bring the world's best expertise and digital protection solutions to the world's most important people and organizations. Let us help protect what's important to you, by assessing your situation and threats relevant to you married with a tailored digital protection package.

Digital Protection Services for VIP's

VIP's live a lifestyle different to many in the world. That lifestyle attracts undue attention and focus from nuisance, malicious and miscreant actors.
VIP's need to continue to go about their lives without being bothered or impacted by negative digital activity.

Protecting What's Important

Digital assets, private information, financial data, social media profiles and connections to the physical world (family, friends, acquaintances) are just some of the areas of focus that Cyber VIP can help protect.
VIP's typically have a desire to maintain separation between their private and corporate/ public lives, we recognize this and strive to increase that level of separation.

We assess and uniquely understand what's important to you, assets, relationships and the level of privacy or separation required

Once your situation is assessed we develop and implement a personalized digital protection strategy that spans technology, people and process.
Our intent is not to stop you doing the things you enjoy or have to do. Our focus is to augment your digital life with discrete and powerful digital protection strategies that minimizes the likelihood of negative impact to you.

Threats Will Continue

VIP lives will continue to become increasingly dependent on the digital world and what's connected to it.
With that increased dependency on the digital world comes the increased targeted and opportunistic digital threats.
The impact of these threats can range from loss of financial or digital asset through to reputational impact in the media – some catastrophic.

Unique Service

Cyber VIP Security Services provides VIP's with what was previously only available to large corporate entities and Government agencies.
Leverage our years of experience from some of the world's biggest and most secure organizations protecting your situation.
Let us help your lifestyle with our unique and targeted VIP service.

- We start by assessing your Isituation and digital threats relevant to you
- .We develop and implement a personalized digital protection strategy
- We monitor, maintain and adapt your digital protection strategy as you change
- We can respond and assist when your digital life is impacted
